

RENK TACKE SHEET EXTRUDER LINE

Screw diameter: 90 mm

L/D: 25

Material thickness can be produced by the machine: 0,6 – 6 mm

Heating zone in screw: 4 pcs.

Vented

Max. width of the tool: 1320 mm

Heating in the tool: 5 pcs.

Power consumption: 110 kWh

Width of the extrusion tool: 840 mm

Output: 220 kg (PS)

Used material: ABS, PS, PP and PE

Remarks:

- hoppers and feeders are not included in the price
